The Dark Side of Nature

you'll never see what's coming next

👁 26 ✓ 1 ★ 1

Chapter 1 by BubbleTrouble

Nature. A wonderful world full of bright liveliness. Trees and shrubs swaying in the wind. Bright green grass, bright red poppy's. Fuzzy bunnies, fluffy squirrels, cute little birds. But there is a dark side. No one has ever found it. The path was hidden. Never to be found ever. Until, I did.....

Chapter 2 by Jim Bradley

It wasn't even a well marked path, just a uniform space between the trees which you could only really see if you stood back a bit and really looked. It was as if the person who planted the trees had deliberately placed the two lines just a little bit further apart than the rest, maybe only four inches or so, but it was enough.

At the start of the path, two large ferns drooped lazily over the entrance, like a green door but when you raised your eyes higher, that path was there for all to see. It was just the sudden awareness of it's existence that made me take those first few faltering steps along that path, nothing more. With hindsight now though, I almost wish I hadn't even bothered because my adventure turned into something quite different, something I wasn't prepared to deal with on any level of my being.
